Customer Reviews

I love to read science fiction books but this is another type of book. This bundle of books is about the alien romance. The author has described the supernatural love in a natural way. I like the characters added by the author and the scenes are also explained very well. I recommend this bundle to all adults who like to read quality romance books.

Who wants some alien romance? Well, I am undoubtedly a fan when it comes to scifi love stories, especially if it features a hot and charismatic male character. And this box set has absolutely given me happiness as a fanatic. I love its exciting plot and the interesting set of characters. I am really finding this so engrossing and romantic to read, therefore, I have become an admirer of the author and am definitely delighted to add this one in my collection.

This book is new to me, Although I've been reading some paranormal but this one is definitely different and I find it very interesting. Nice story with a lot of twist. . The story and character are developed very well and I like some of the catchy lines. Compare this from the last one I've read. This one is more mature and easy to picture out story. Nice compilation of stories and I'm enjoying reading this.
