Reoperative Gastrointestinal Surgery

Synopsis

Every general surgeon realizes that problems associated with or following surgery on the gastrointestinal tract are often quite serious and are always challenging. What to do and when to do it are paramount to the best interest of the patient. The experience collected by the authors of this book will be most helpful in making correct decisions and in reminding all surgeons to remain wary of unexpected variables....A wise surgeon realizes that it is worthwhile to develop surgical plans based on all available factors. The pros and cons of numerous corrective procedures are clearly presented in this volume and should be of great help in arriving at the best solution to many of the problems encountered. The authors have thoroughly considered the many indications for reoperation as well as alternative approaches in solving the encountered difficulty. Furthermore, based on rich personal experiences, they outline up-to-date approaches to some of the more challenging problems requiring surgical correction. Chapter 1. Indications for Reoperation in Gastrointestinal Surgery. Chapter 2. Radiologic Evaluation of the Operated Patient. Chapter 3. Radiologic and Endoscopic Alternatives to Reoperative Gastrointestinal Surgery. Chapter 4. Surgery for Intra-Abdominal Sepsis. Chapter 5. The Esophagus Chapter 6. Gastric Surgery. Chapter 7. Hepatic and Portal Hypertension Surgery. Chapter 8. The Biliary System. Chapter 9. The Pancreas. Chapter 10. Surgery for Obesity. Chapter 11. The Small Bowel. Chapter 12. The Colon and Rectum

ISBN-10: 0838583903

ISBN-13: 978-0838583906

Product Dimensions: 10.7 x 7.6 x 0.8 inches

Shipping Weight: 1.6 pounds

Average Customer Review: 4.0 out of 5 stars [See all reviews](#) (1 customer review)

Best Sellers Rank: #2,001,432 in Books (See Top 100 in Books) #40 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Surgery > Colon & Rectal](#) #68 in [Books > Medical Books > Medicine > Surgery > Colon & Rectal](#) #349 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Gastroenterology](#)

Customer Reviews

Teaching well and explains in pictures and/or text various surgical procedures. The publisher and

the authors should update it and reissue it. An excellent buy.
