How To Build A Million Dollar Medical Transportation Company - Revised Edition

*How to Build a Million Dollar
Medical Transportation Company*

By Joel E. Davis

Building Wealth by Serving the Needs
of Your Community

Synopsis

• How to Build a Million Dollar Medical Transportation Company • is an online best-selling 323 page Manual that literally shows you the step-by-step process to building your own Non-Emergency Medical Transportation Company. The elderly population is growing at such a pace that it will literally double by the year 2030. This highly targeted and rapidly growing niche market is always going to need assisted transportation to and from medical appointments. Coupled with a booming medical industry that will consume in excess of 20% of the US GDP by the year 2016, hospitals and facilities are always in need of transportation to move patients and residents. Facilities need a host of reliable transportation services to keep their daily operations operating effectively. At a time when the economy is in decline, unemployment is high and inflation is rising the prospects for finding and starting a legitimate business opportunity is rare. However, the non-emergency medical transportation industry is an industry whose demand will literally double in the coming years. This is a business opportunity with a future. It is a prosperous business opportunity that you can build and sell for future profit. Or, you can pass your business to your heirs. There are several ways to make money and generate revenue in the medical transportation industry. You can contract with Medicaid and brokers to ensure guaranteed revenue paid for by the government. You will always enjoy receiving regular checks from the government for transporting Medicaid recipients. You can contract with local hospitals, nursing facilities, day hab facilities, dialysis centers and more. Again, these facilities are always in need of a wide range of transportation services. They NEED you! You can generate profitable Private-Pay business. These are clients that pay out of pocket for transportation to and from their medical appointments and other engagements. You can secure contracts with worker compensations insurance companies. This is a highly profitable venue as almost all worker comp insurance companies pay well! And one of the best aspects, this business opportunity does NOT require a lot of upfront capital! There is no fancy office, real estate, or store front! You can transport clients to and from medical appoints, dialysis centers, treatments centers, in and out of hospitals, out of emergency rooms, to and from doctor offices, senior centers, and so much more! Again, the opportunities are wide and diverse! And, remember, this is NON-emergency transportation! You do NOT need any special life-saving skills, equipment or training. Because the needs of your niche markets are wide and divers, so are the opportunities to make money in the medical transportation industry. Anyone can start, build and operate their own successful non-emergency medical transportation company when you follow the step-by-step instructions explained in this content-rich manual. You will learn of all the necessary licensing and registration requirements. You will discover all of the different elements and components you will want to build

and integrate into your successful business You will gather strategies, systems, policies, and procedures for which your employees can operate your business to ensure success You will receive a literal copy of a Driver Manual and an Employee Manual for which you can duplicate for your business You will discover what you should do on a daily basis to grow, protect, and preserve your business You will learn how to monitor your level of success and keep vital business statistics so that you know exactly when to add more vehicles to increase profitability And, youâ™re going to learn so much more! Again, this is a 320 page content-rich manual. There is no fluff! Itâ™s direct and right to the point. At a time when finding legitimate business opportunities are rare, this is business opportunity that you can

Customer Reviews

Even though the book is one of the 1st books written about the NEMT industry. The book is lacking how to? run day to day activities, marketing your service, standard , process and operation Manuel. The book is a seed for the author to get you to take more courses and live training from his seminars. I realize that not that many people out are training in this area. However, paying \$99 not

worth it at all as you can find more valuable information online for free. After i paid that much to buy his book, which was before it was available in . I don't think i would be paying a \$0.01 to get his training..

The price is the reason for the mediocre rating. While I think his products and advice are good, they are priced too high. I did learn somethings about the business of transporting clients.

All of his youtube videos have disabled comments. He has people from Fiverr to make his fake testimonials on youtube. Go to Fiverr and type in "Gregorysheppard", he is one of the guys who made a fake review for this guy.DON'T WASTE YOUR HARD EARNED MONEY!!

I'm glad I purchased despite previous reviews. Provided great insight on the inner working of the business. Will share with other business partners.

I found this ebook to be very insightful. I am glad I invested. If you are like me and have no prior experience in the medical transportation industry I suggest reading it multiple times. The more I studied it the more I learned. This is not like reading a regular book with a plot and story line. This is a how-to manual that needs to be studied and make notes. You will definitely learn alot.
