Carotenoids: Handbook

Synopsis

With the number of natural carotenoid structures reported rising above 700, there is a clear need for a single reference work containing data on all these compounds. This Handbook includes all natural carotenoids and common isolation artefacts for which structures have been assigned up to the end of 2001. For each compound, it provides selected key references and critically assessed information about natural occurrence and isolation, and spectroscopic data for identification. A standard full-page entry is given for each compound that has been characterised unambiguously, showing - Common name- IUPAC name- Structure, including stereochemistry, when assigned- Spectroscopic data: UV/Vis (with illustration); MS; CD; NMR (type and references)- Chemical synthesis (references)- Natural sources and outline of isolation procedure- Remarks, e.g. further spectroscopic data, stability, properties, derivatives- Selected key references

Book Information

Hardcover: 647 pages

Publisher: Birkh f user; 1st ed. 2004. Corr. 2nd printing 2008 edition (August 15, 2008)

Language: English

ISBN-10: 3764361808

ISBN-13: 978-3764361808

Product Dimensions: 1.5 x 6.7 x 9.4 inches

Shipping Weight: 2.9 pounds (View shipping rates and policies)

Customer Reviews

I don't at all understand the "Corr. 2nd printing 2008". I hoped that the new edition had corrected the misprints, but all I have found in the first print is still there. The only difference is added advertisements at the end of the book, and I don't call that "corr. 2nd printing"!!!Therefore ONE star for the so-called "corr. 2nd printing", but this is not an evaluation about the 1st printing/unchanged content of the 2nd printing.
